Book Synopsis

Is your social life affected by your breath? No luck dating because of your breath? It's time to take action and start learning about bad breath causes and possible cures.

Today only, get this Amazon bestseller for cheap. Read on your PC, Mac, smart phone, tablet or Kindle device.

Bad breath, also called halitosis, can be embarrassing and in some cases may even cause anxiety. It's no wonder that store shelves are overflowing with gum, mints, mouthwashes and other products designed to fight bad breath. But many of these products are only temporary measures because they don't address the cause of the problem.

Certain foods, health conditions and habits are among the causes of bad breath. In many cases, you can improve bad breath with consistent proper dental hygiene. If simple self-care techniques don't solve the problem, see your dentist or physician to be sure a more serious condition isn't causing your bad breath.

This book will provide you with a sound overview of the subject and will give you advice and tips to get rid of this problem or to help friends and family members suffering from halitosis.

After downloading this book, you will learn...

Does your breath really stink? And how to tell if it stinks
What really causes Bad Breath
Bad habits that you should break
Natural remedies that you can use
get rid of Bad Breath for Good

And Much, much more!

Read what other people have to say

"I picked this book up through Kindle Unlimited, and I am incredibly grateful that I did!

As someone with exceedingly and consistently terrible breath, this book was an absolute miracle for me. The information in it alone is priceless, and the workarounds and advice that it offers is beyond measure."
